

# Greetings!

Thank you for considering my books for inclusion in your collection.

My name is Lee Gabel and I have been writing professionally since 2016. For your convenience, the following pages include one-pages for all my books. I offer competitive rates for my ebooks and I support standard trade discounts for my paperbacks.

I love reading fast-moving, entertaining stories and I endeavour to write in the same style. Genre fiction is my strength. Samples of reader comments follow below.

With thanks,  
Lee

## Vermin 2.0: Hunger Pains

- *There is nothing I didn't like about this book and it got me reading the rest of the series. It was an absolute blast!*
- *The character development was exceptional and the characters themselves were interesting. The entire novel ... was very fast paced.*

## Arachnid 2.0: Darkness Crawls

- *After Vermin, I said to myself that book 2 would be a letdown. I was so wrong. Up all night reading it. Relatable characters and situations. Now I have to sleep for a few hours and start book 3.*
- *I am no longer young and usually cannot identify with younger points of view in books. I instantly was catapulted into this world and I loved it. This book had the right amount of realism, gruesomeness and horror. It is a winner.*

## Molerat 2.0: Terror Burrows

- *I love, love, love this series. The*

*characters are so easy to love and they pop off the pages to become real in my mind. Please, please, keep them coming.*

- *This book is literally a book that cannot be put down. Great story. Characters are appealing and interact well with each other. Highly recommended.*

## Tied: A Street Gang Novel

- *Tied is a very well written crime thriller that has strong messages for all who read it. It is fast moving, intriguing, humourless and upsetting with an ending that left me breathless.*
- *Gabel's detail-rich world of gang culture was a fascinating read. The story will draw you in and the characters will keep you to the surprising end.*

## David's Summer

- *This is a riveting story of crisis within a family and the toll taken when one is extremely ill and the family is floundering in the midst of pain and suffering.*
- *As I read this book, I cried through the honesty of the family and what they were going through. The value of a human being is priceless, especially a child. This book is an emotionally charged read and will stay with you for a long time. Excellent!*

## Snipped: A Cutting Comedy

- *This is a wonderful, laugh-out-loud book. Poor Ted and his "clown" friends just made me crack up while laughing and shaking my head in wonder. I didn't know one person could get into so many strange situations.. I LOVED IT!*
- *Who would have thought such a sensitive subject could be so hilarious? The reader needs to be cautioned that they may have fits of out-loud laughter, so read in the appropriate place.*

# Vermin 2.0: Hunger Pains

by Lee Gabel

**Sam's fear of rats takes him to the verge of terror. When super-sized vermin turn up in his apartment, his phobia pushes him over the edge.**

But it isn't one or two rats. A hybrid colony – genetically superior, strong, and super intelligent – has moved into the basement... and living flesh is on the menu.

Pets and tenants disappear, leaving behind a wake of carnage Sam is powerless to stop. Now, with his estranged son Bradley dumped on his doorstep, Sam must switch into protection mode – if he can.

Faced with impossible odds, Sam hires Bertha O'Connor from Detest-A-Pest Exterminators Inc. She runs the only outfit brave enough – or crazy enough – to take the job. O'Connor and her crew need backup and drag Sam and Bradley along for the battle.

But this horde of super-rats may be smarter than anyone had bargained for...

# Arachnid 2.0: Darkness Crawls

by Lee Gabel

**Spiders. Over 35,000 species. Every person on Earth eaten in one year. Now there's one more... a ravenous eight-legged hybrid thousands of years in the making and bigger than a dozen burritos.**

After a summer of exterminator training in New York, Bradley returns home ready to face his senior year with renewed confidence. But fate gets in the way of his grand teenage plans – especially when eight legs attack instead of four.

And these aren't your typical, everyday spiders. Their newly acquired taste for raw meat has them casting a wide net over Bradley's sleepy San Fernando suburb. It doesn't take them long to scramble up the food chain.

Add a vengeful ex-girlfriend casting a web of lies into the mix, and things get downright sticky.

But Detest-A-Pest can't resist a challenge. Sam and O'Connor rejoin Bradley and his inventive friends as they wage war on an infestation of spiders poised to swallow not only the high school, but the neighbourhood and everyone within...
